

Assembly Instructions MODULAIRE unit

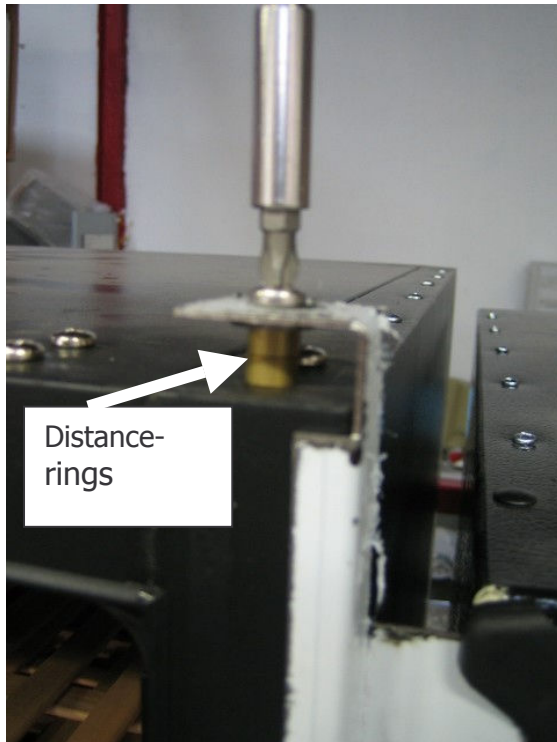

1. Setting up and positioning of the wine cooler.
Align the wine cooler horizontally and vertically.

2. Setting up and positioning of the fridge-freezer unit.
Align the unit horizontally and vertically next to the wine cooler.
3. The appliances must be placed parallel and in line.
The distance between the appliances is determined by placing the front attachment (see step 4).
The height of the units is determined by the top attachment (see step 5).

4. Installation of the front attachment
Fixing the Z-profile from the top of the wine cooler with distance rings.

5. Installation of the top-attachment

6. Installation of the toe grill front/bottom
